SHASHWAT **SINGH**

@ s.singh.3@research.gla.ac.uk
229A, Kelvin Building, University of Glasgow, G12 8QQ, Scotland

I am currently a Ph.D. student at the University of Glasgow and working on probing massive and supermassive black holes using LISA - a future space-based gravitational-wave detector.

Academic Qualifications

2023 – 2027 | **University of Glasgow, School of Physics and Astronomy, PhD**
Thesis title : Revealing the family of massive black holes with LISA
Supervisors : Dr. Christopher Berry and Dr. John Veitch
Gravitational Waves | LISA | Super/Massive Black Holes | Population Inference

2022 – 2023 | **l'Observatoire de Paris, Université PSL (Paris Sciences & Lettres), M2 – International Research Track**
Program combined with courses and research in laboratories.
General-relativity | Data-analysis | Magneto-hydrodynamics | High-performance-computing

2021 – 2022 | **Sciences et Ingénierie, Sorbonne Université, M1 – Paris Physics Masters**
Program targetted towards fundamental courses and compulsory lab-work.
Advanced quantum mechanics | Statistical mechanics | Astrophysics & Cosmology | Numerical-methods

2017 – 2021 | **Sardar Vallabhbhai National Institute of Technology, B. Tech, Mechanical Engineering**
Four-year program combined with theoretical and experimental work.
Data-analysis | Fluids - mechanics &dynamics | Machines and rigid body motion

Research Experience

January 2023 – July 2023 | **Max-Planck-Institut für Gravitationsphysik, (Albert-Einstein-Institut), Supervisor : Dr. M. Zumalacárregui**
Master Thesis : Probing Fuzzy dark matter using lensed gravitational waves detected by LISA.
Master Thesis | Gravitational-Wave-Lensing | Fuzzy Dark-Matter

September 2022 – January 2023 | **l'Observatoire de Paris, Lab Insertion Unit, Supervisor : Dr. A. Hees (SYRTE) & Dr. N. Korsakova (APC)**
Waveform compression of Extreme-Mass-Ratios-Inspirals (EMRIs) using Singular Valued Decomposition.
Gravitational-Waves | EMRI | Waveform-modeling

April 2022 – July 2022 | **Max-Planck-Institut für Gravitationsphysik, (Albert-Einstein-Institut), Supervisor : Dr. A. H. Nitz**
Prospects of premerger detections & skylocalization of gravitational waves (GWs), using higher modes.
Internship | Gravitational-Waves | Higher-modes | Premerger-detection | Multi-Messenger Astronomy (MMA) | PyCBC

June 2020 – September 2020 | **Max-Planck-Institut für Gravitationsphysik, (Albert-Einstein-Institut), Supervisor : Dr. A. H. Nitz**
Build a prototype analysis for massive binary blackhole (MBH) mergers using the LISA.
Internship | Gravitational-Waves | LISA | PyCBC | Simulation

May 2019 – July 2019 | **Dept. of Mechanical Engineering, Indian Institute of Technology Indore, Supervisor : Dr. S. K. Sahu**
- Developed numerical method to study heat transfer effects of synthetic jet on different materials in the shape of a 2D plate.
- Developed C++ code for allowing mesh motion within the model in Ansys Fluent.

Internship | Synthetic-jet | Ansys Fluent | Computational-Fluid-Dynamics (CFD) | C++

May 2019 – August 2020 | **Dept. of Physics, SVNIT Surat, Under supervision of Dr. K. N. Pathak**
Worked on several projects especially targeted towards the use of deep learning
- estimating parameters of GWs (Convolutional neural networks)
- sequence-prediction of galaxy mergers (Long-short term memory neural networks)

Gravitational-Waves | Galaxy mergers | Sequence-prediction | Machine Learning (ML)

Conference & Seminar organization[‡] and contributions

- Student Seminar, University of Glasgow, UK[‡]
- GR24 & Amaldi16, University of Glasgow, UK, July 2025.[‡]
- SUPA Cormack, University of Dundee, UK December 2024. *Constraining Massive Black Hole population from LISA observations*.
- LISA Astrophysics Working Group Meeting, MPA Garching, Germany, Nov 2024. *Constraining EMRI Population using Hierarchical Bayesian Inference*.
- Cosmology from Home, July 2023. *Probing Fuzzy dark matter with lensed Gravitational waves.*
- 3rd International Conference on Condensed Matter and Applied Physics (ICC) - Bikaner, India, October 2019. *Lindblad Evolution and Quantum to Classical Transition of Rabi Oscillation in Single Quantum Dot*.
- 9th International Conference on Gravitation and Cosmology (ICGC) - IISER Mohali, India, December 2019. *Clustering and Predicting Astrophysical events using GW.*

Workshops & Summer School organized[‡] and attendance

- Python for HPC Workshop by Max Planck Computing and Data Facility (MPCDF), July 2023
- 2^{nd} MaNiTou Summer School on Gravitational Waves : A new window to the Universe - Nice, France, July 2023.

Teaching[‡] and Mentorship[*,°]

› 2024, Physics Lab, P2.

Undergraduate[°] and master's[*] students

- 2024, Nancy Sharma° & Sree Suswara*, SVNIT, Surat (via Bose.X), *Gravitational-Wave Lensing + Machine Learning*.
- 2023, Nancy Sharma° Nancy Jikarda°, SVNIT, Surat (via Bose.X), *Gravitational-Wave Lensing*.
- 2021, Adarsh Mahor° & Janvita Reddy°, SVNIT, Surat (via Bose.X), *Co-authored a paper; Application of ML in astronomy*.

Technical Skills

Python	●●●●●
C++/C	●●●●○
MATLAB	●●●○○
Mathematica	●●●○○
LaTeX, Pack Office	●●●●●
JS, HTML, CSS	●●●○○

Popular Libraries worked on

- Astropy, GWpy, PyCBC, IBM Quiskit
- Scikit, Pytorch, Keras
- Managing HDF5, FITS files

Awards and Recognition

2023	University of Glasgow Graduate School scholarship.
2023	Received Erasmus+ funding (EU's program to support education, training, youth and sport in Europe)
2022	Université PSL fellowship for higher education (M2).
2022	Received IPIASMUS grant (IPI Initiative « Physique des Infinis ») towards carrying out an internship at Max-Planck-Institut für Gravitationsphysik (Albert-Einstein-Institut).
2020	Received honorarium by the Max-Planck-Institut für Gravitationsphysik (Albert-Einstein-Institut) for a three-month internship.

Public Libraries

AEI - lensing library 2023

github.com/https://github.com/miguelzuma/GLoW_public
Contributed to the GW lensing library

gravitational-waves | lensed-gravitational-waves | PyCBC

Inclusion of higher-modes for Parameter estimation of Gravitational waves in PyCBC 2022

github.com/SSingh087/pycbc/tree/conmodel
A recovery model that allows extracting mode-by-mode information while performing parameter estimation.

gravitational-waves | higher-modes | premerger-detection | multi-messenger astronomy | PyCBC

LensGW for generating gravitationally lensed signals 2021

github.com/SSingh087/lensGW
Python library for generating lensed gravitational waves and uses PyCBC for waveform generation so that all analysis can be done using tools provided by PyCBC.

gravitational-waves | lensed-gravitational-waves | PyCBC

lensGW-PyCBC-plugin 2021

github.com/SSingh087/lensGW-PyCBC-plugin
Plugin for allowing waveforms to be recognized by PyCBC and perform parameter estimation

gravitational-waves | lensed-gravitational-waves | PyCBC

LISA - Module 2020

github.com/gwastro/pycbc/commits/master/pycbc/detector.py?author=SSingh087
Prototype for analysis of MBH GWs signals using LISA space-based GW observatory.
The module consists of a simplified LISA orbit and detector response towards a GW signal.

gravitational-waves | LISA | PyCBC

Extracurricular & Outreach activities

BOSE.X, Co-Founder :	Independent research organization targeted to promote multidisciplinary research; since 2019. (bosex.org).
GRA-WITTY, Founder :	Outreach program; since 2023. (gra-witty)
Glasgow Science Festival :	Outreach activity, 2024
Worldcon :	Outreach activity, 2024
